Dear Watchout!

I am writing to warn your viewers about a death trap of an adventure park that I visited recently.

First of all I spent the day at 'Great Fun Pleasure Park' however great fun and pleasure it was not! I was conned into parting with £15 for my entry to the fun park, never mind the additional expense of petrol for the long trip to the park. Many other families paid a great deal more for this disappointing experience.

Secondly the fun park is a terrifying place because many of the rides have no safety bars, which means lives are put in danger. Furthermore the loop-the-loop roller coaster has no harnesses at all, it's amazing that no one has been seriously injured already.

Thirdly there are no refreshment facilities of any kind and the toilets are disgusting; they are crawling with flies and not a scrap of toilet paper is provided!
